COVER LETTER

Dear Selection Team,

I am pleased to apply for the role in this application that requires a combination of Economics and Data Science skills. My profile combines a solid economic background with experience in advanced data analysis, which allows me to offer informed and strategic solutions to address diverse challenges.

My background as an economist, coupled with my skills in data science, has allowed me to tackle complex economic problems and translate data into insightful insights for decision-making. My ability to lead projects that combine advanced data analysis with Machine Learning and Artificial Intelligence techniques are key to achieving solid results. Additionally, I have demonstrated effective data visualization skills using tools such as Power BI, Tableau, and Looker Studio.

I have a proven leadership record as president of the School of Economics League, and my continued involvement with the university sports team reflects my commitment to excellence and teamwork. My interest in training AIs in social networks demonstrates my willingness to explore technological innovations and adapt to emerging trends.

I am excited by the opportunity to apply my diverse skill set and passion for combining economics with data analytics in a collaborative professional environment. I look forward to discussing how I can contribute to the success of your team and organization.

Thanks for your time and consideration. I am available to provide more information about my experience and discuss how my profile can fit into your environment.

Sincerely,

Mateo.
